Dear Sir,

Sub: Hazardous road condition between Kilometer 220 - 230 (Donigal & Maranahalli ) on Shiradi Ghat. Requires immediate strengthening before monsoon sets in.

This letter is in further reference to our communication dated 13-01-2022 regarding construction of the above referred stretch with proper scientific planning and execution.

The said stretch which is in a very bad condition needs immediate attention and restoration. The present condition is unmotorable and hazardous to the life of the commuters. We request the district administration to immediately inspect the condition of this road and propose to asphalt the surface of the road with proper paver finish so as to sustain the effects of the soon expected monsoon rains.

People of coastal districts have always experienced hardships in traveling on this stretch of NH 75 in the past many years when it was damaged due to rains every year and was not restored for months.

If this stretch of (10 kms) road is not restored it may deteriorate further causing major inconvenience to all types of traffic connecting the coastal districts and including heavy cargo movement to New Mangalore Port affecting the Exim trade severely.

All of us are aware about the ambitious initiatives being taken by the central and state governments on upgrading the Shiradi ghats. As we all understand that these new initiatives will take a few months to be implemented / executed and monsoon is round the corner, we cannot risk the precious lives moving on this stretch.

Contd...2.

We request your good office to approach the concerned authorities(NHAI) to immediately restore this stretch of road to safe and motorable condition ensuring safety and comfort of the citizens which should be one of the primary concerns of any government.

We would appreciate prompt and quick action on the above subject matter. Please keep us updated on any progress on our request.

Thanking You,

Yours sincerely
